EXTRACT FROM THE STANDING RULES

1. THE HOSPITAL FOR CONSUMPTION AND DISEASES OF THE CHEST is under the immediate patronage of—

HIS MAJESTY THE KING.

HER MAJESTY THE QUEEN.

HER MAJESTY QUEEN MARY.

OBJECTS OF THE INSTITUTION.

2. This Institution has been established with a view to supply the deficiency so severely felt by Necessitous Persons in want of a Hospital for the relief of persons suffering from Pulmonary Diseases; Patients afflicted with Consumption not being generally admissible into the wards of other Hospitals.

3. Its principal objects are :—

1st. The treatment of In-Patients afflicted with PULMONARY TUBERCULOSIS, and of persons labouring under other severe diseases of the Chest, whose cases admit of a reasonable hope of receiving more or less permanent relief from treatment.

2nd. To supply other persons, similarly afflicted, with Advice and Medicine as Out-Patients at the Hospital.

3rd. To afford a more extended field of observation and research to Medical Science than would otherwise be possible for the study of this class of disease.

ESTABLISHMENT.

4. The Establishment consists of a President and Vice-Presidents, a Chaplain, a Treasurer, a Secretary, a Resident Medical Officer, a Matron, a Medical Superintendent at the Sanatorium, Consulting Physicians, Consulting Surgeons, six Physicians, six Assistant Physicians, two Surgeons, two Assistant Surgeons, a Pathologist (and Curator of the Museum), a Surgeon and an Assistant Surgeon to the Throat and Ear Department, a Dental Surgeon, a Director of the Radiological Department, a Physician to the Cardiac Department, a Director of the Pathological Department, Registrars, an Almoner and Assistant Almoners.

GOVERNMENT AND MANAGEMENT.

5. The Government and Management of the Hospital and Sanatorium are entrusted to a General Court of Governors and a Committee of Management

QUALIFICATIONS AND PRIVILEGES OF GOVERNORS.

6. Every Donor of £52 10s., or upwards, given at one time, or at different periods, within three years, becomes a Governor for life.

[Donors of 30 Guineas prior to June 1, 1873, continue to be Life Governors.]

7. Every Subscriber of £5 5s., or upwards, per annum, becomes a Governor.

[Annual Subscribers of 3 Guineas, whose Subscriptions commenced prior to June 1, 1873, remain Governors during the continuance of such Subscription.]

8. Every Donor of £10 10s., and any Charitable Society or Organisation contributing to the funds of the Hospital, shall be entitled for every £10 10s. contributed, to recommend One In-Patient and Eight Out-Patients at any time during the ensuing twelve months.

9. Every person making a bequest of £100, or upwards, to the Hospital may nominate a Life Governor; and, in the event of no such nomination being made, one of the Executors mentioned in the Will shall be entitled to the privileges of a Life Governor, as soon as the sum bequeathed or a portion of it, not less than £100, shall have been paid to the Hospital.

10. Annual subscriptions shall be paid in advance for the current year, such year to be computed from the Quarter-day next preceding the date of subscription.

11. All Governors shall have the right of attending at Courts of Governors, but Governors who are in arrear with their subscriptions shall not be entitled to speak or vote at any such Court or to serve on any Committee appointed in accordance with the Rules of the Hospital, and Governors who are new Annual Subscribers or Donors shall not be entitled to speak or vote at any such Court or to serve on any such Committee unless their subscriptions or donations shall have been paid at least three calendar months previously thereto, and Governors being Salaried Officers or holding similar offices or being Students or Servants of the Hospital shall not be entitled to speak or vote at any such Court or to serve on any such Committee, and shall not be entitled to speak, vote or serve at or on any such Court or Committee for one year after they shall have ceased to be such Salaried Officers, Students or Servants as aforesaid, unless specially authorised so to do by the Committee of Management.

12. No Governor shall be entitled to vote at any Court or Committee on any question or matter wherein he or she is personally interested.

13. Honorary Governors are entitled to the same privileges as Life Governors.

14. Persons becoming Governors, by donation or annual subscription, are entitled to recommend One In-Patient and Eight Out-Patients annually for every donation of £52 10s., or annual subscription of £5 5s.

15. Annual subscribers of less than £5 5s. are entitled to recommend Two Out-Patients for each £1 1s. subscribed.

[Annual Subscribers of 1 Guinea, whose subscriptions commenced prior to January 1, 1915, continue to receive Four Out-Patient Letters as heretofore.]

16. Every Incumbent or other Minister who shall permit a collection to be made in his Church or Chapel for the benefit of the Hospital, shall be entitled to recommend, for every £52 10s. so collected, One In-Patient and Eight Out-Patients annually during five years; but in all cases where the Collection is less than £52 10s., the Incumbent or Minister shall be entitled to One In-Patient Letter and Eight Out-Patients' Letters for each sum of Ten Guineas collected; such letters to be issued for consecutive years. And every Clergyman or other Minister, not being the Incumbent, who shall preach for the benefit of the Hospital (the sum collected not being less than £52 10s.) shall be entitled, during the year ensuing the day on which the collection was made, to recommend One In-Patient and Four Out-Patients.

FORM OF BEQUEST.

*To those Charitable Persons desirous of assisting the Charity by Will
the following Form of Bequest is recommended :—*

"I bequeath to the Hospital for Consumption and Diseases
of the Chest, Brompton, in the County of London,* the sum
off pounds free of Legacy Duty, and direct
that the receipt of the Treasurer or other authorised officer
for the time being shall be a sufficient discharge to my
executors therefor."

* Since the passing of the Mortmain and Charitable Uses Act, 1891, real property may be given by Will for Charitable purposes. In that case the real property desired to be given to the Charity, or the particular investment or Residuary Estate, as the case may be, should here be described.

† The sum to be expressed in words at length.

A SHORT HISTORY OF THE HOSPITAL.

THE HOSPITAL was instituted in 1841 ; the Manor House, Chelsea, having been taken for a term of years for the accommodation of In-Patients.

The West Wing of the present Hospital was completed in 1846, and contained 100 beds, the foundation-stone having been laid by H.R.H. the Prince Consort in 1844. The Chapel was built in 1850, in which year the Hospital was incorporated by Act of Parliament.

The East Wing was added in 1854, and the Bournemouth Sanatorium was established as a branch of the Hospital in that year, but this is now a separate institution.

During 1872 and the three subsequent years houses were purchased in the Fulham Road, opposite the Hospital, with a view to extension, and the foundation-stone of the South Wing was laid on the 17th July, 1879, by H.M. King Edward VII, then Prince of Wales. The new building was opened by the Rt. Hon. The Earl of Derby in 1882, and the accommodation is now 368 beds. In this building are splendidly equipped Operating Theatres, Throat, Nose, Ear, Dental, and Heart Departments ; X-Ray screening and treatment rooms, a Compressed Air Bath, Dispensaries, a Mortuary Chapel, Disinfecting Plant, Pathological Laboratories, Museum, and a spacious Out-Patients' Department.

A Nurses' Home, providing each nurse with a separate room and connected by a covered way with the Hospital, was completed in 1900, thereby greatly adding to the comfort and convenience of the Nursing Staff.

In 1900 it was decided to establish a Sanatorium and Convalescent Home on the Chobham Ridges, near Frimley, Surrey, this site possessing many advantages, being 400 feet above sea level, and sheltered from North and East winds by pine woods. The Sanatorium, which contains 150 beds, was opened by Their Majesties King George V and Queen Mary, then Prince and Princess of Wales, on the 25th June, 1904.

THE SANATORIUM and CONVALESCENT HOME.

The Sanatorium and Convalescent Home stands on the Chobham Ridges, Surrey, nearly 400 feet above sea level, about 30 miles from London, 2 miles from Frimley Station, and 3 miles from Camberley.

Except on the south, which faces Frimley Common, the grounds are surrounded by the pine woods of the Heather-side estate.

The soil is gravel and sand, and has a reputation for dryness.

The wards are designed to have windows open day and night, with protection from weather and glare, and the lower storey is so arranged that patients in bed can be wheeled out on to the terrace, to be under the full influence of the sunshine and atmosphere. Open balconies are formed at the end of each pavilion.

The distinctive feature of the Brompton Hospital Sanatorium is that patients are put to such useful work as they are capable of performing, with benefit to their health, and by a system of graduated labour are, in most cases, restored, before leaving, to their full working capacity. Idleness is not permitted, except in those patients whose condition demands absolute rest. The standard aimed at as regards nutrition is to raise the patient's weight to a few pounds above his highest known weight or to a few pounds above the normal weight for his height.

When well enough to do so, the patients make their own beds, change their bed linen, clean their wards and windows, polish the floors of the adjacent corridors, keep the dining halls clean and the brass work bright. In addition they wash their plates, knives and forks after meals. This work all tends to teach the patients to help themselves, and at the same time effects considerable economies.

The grades of work and exercise are :—

1. Patients unfitted for active exercise make mops, mats, sew, etc.
2. Walking from 1—6 miles a day.
3. Picking up wood, carrying baskets of mould, watering plants, etc.
4. Using a small shovel, cutting grass edges, hoeing. etc.
5. Digging broken ground, mowing grass, etc.
6. Trenching, mixing concrete, felling trees, etc.

Hospital for Consumption and Diseases of the Chest,
BROMPTON.

102nd Annual Court of Governors,

Thursday, 25th March, 1943.

The Right Hon. THE EARL OF DUDLEY, M.C., D.L., J.P.,
in the Chair.

REPORT OF THE
COMMITTEE OF MANAGEMENT.

The Committee have pleasure in presenting their Report on the work of the Hospital and Sanatorium for the past year.

Patients

With the increase in the incidence of tuberculosis through conditions brought about by the War, and the return to London of many who were evacuated to other parts of the country, the number of patients seeking treatment at the Hospital has shown a marked rise over the preceding year, necessitating additional accommodation being made available for in-patients.

The number of in-patients treated has increased by 34 per cent., and a similar increase is recorded in the number of new out-patients.

In common with most Hospitals, considerable difficulty has been experienced in maintaining an adequate staff, particularly nursing and domestic.

At the same time, the Hospital must remain ever ready to take its part as a Casualty Clearing Hospital in the Ministry of Health Emergency Hospital Scheme.

The Committee have expressed their desire to co-operate fully in the scheme for mass radiography throughout the country recently announced by the Minister of Health.

It is interesting to recall at the present time that the first mass radiology survey in England was carried out, under the direction of the research department of the Hospital, in 1936, when over 1,000 industrial workers and 1,350 school children were examined and the result of the investigation published in the *British Medical Journal* and the Research Reports of the Hospital.

The Committee are grateful to the Sir Halley Stewart Trustees and Sir Alexander Roger, whose generous grants not only enabled the Hospital to carry out this investigation, but to continue its researches in childhood and adolescent tuberculosis.

* A Joint Committee of King Edward's Hospital Fund and the Voluntary Hospitals Committee for London have under consideration the subject of the co-ordination of Hospital Services, and have invited the various groups of Special Hospitals to express their views in the form of a memorandum as to the part they consider they should play in post-war Hospital Services.

* The Voluntary Hospitals in London for diseases of the chest appointed representatives of the Committees of Management and of the Medical and Surgical Staffs to draw up a memorandum on the subject.

Several meetings of the representatives were held and their memorandum has now been completed and forwarded to the Joint Committee referred to above, and arrangements have been made for a Joint Committee of representatives of the Chest Hospitals to meet at intervals to consider questions of policy and matters of common interest.

The Minister of Health has given permission for partial reinstatement of the damage caused by enemy action to the Hospital and the Nurses' Home, to which reference has been made in previous reports, and the work is now nearing completion.

Representatives
on British
Hospitals
Association

For some time past the only representatives of the Hospital on the British Hospitals Association have been Dr. A. Hope Gosse and the Secretary. The Association invited the Committee to nominate additional representatives and Mr. Widdrington Stafford, Mr. J. Harold Cooke, Dr. W. Ernest Lloyd and Dr. J. Clifford Hoyle have been selected.

Medical
Registrar

At the outbreak of war, one of the Medical Registrars was called up for service with the Royal Air Force, and the second Registrar subsequently entered the Royal Army Medical Corps. For a time efforts were made to carry on without the services of a Registrar, the work being undertaken by the Resident Medical Officer. With the increase in the number of patients now receiving treatment, the services of a Registrar have become necessary, and Dr. Neville Southwell, M.R.C.P., has been appointed.

Temporary
Pathologist

Dr. Mary MacHugh relinquished the post of Temporary Pathologist in May, on joining the Indian Medical Service, and Dr. Stanley Marshall has been appointed to succeed her.

Retirement of
Miss L. C.
Marx

It is with very great regret that the Committee have to record the retirement in May of Miss L. C. Marx, who filled the post of Lady Almoner with conspicuous efficiency for over 22 years.

Under her wise direction the work and activities of her department increased enormously during that time, and the important part they now take in the affairs of the Hospital cannot be too highly stressed.

Miss Marx's keenness of desire to further the interests of the Hospital, and her untiring efforts on behalf of the patients, have always been a source of inspiration to the staff of her department, and by her retirement the Hospital loses a most loyal and devoted officer whose outstanding ability is recognised not only at Brompton, but by the many Associations throughout the country whose activities bring them into contact with the work of the Hospitals.

The vacancy has been filled by the appointment of Miss M. S. Coltart, who possesses considerable experience in this important branch of Hospital work.

At the request of the Minister of Health, arrangements have been made by the National Physical Laboratory to carry out tests of the amount of radiation received by workers in X-ray Departments, so that any excessive and dangerous irradiation may be discovered and dealt with.

Radiation
received by
Workers in
X-Ray
Department

Tests were carried out on the Radiographers and Nurses in the X-ray Department, and the Committee are pleased to report that the average amount of radiation received by them was only one-fifth of that which the British X-ray and Radium Protection Committee consider should not be exceeded.

The work of the Breathing Exercises Department continues to increase as the benefit derived from the special form of treatment given by it becomes more apparent.

Breathing
Exercises
Department

The Department was started in 1934, when one part-time Instructress was appointed.

In 1935, 2,131 individual treatments were given to in-patients and 2,949 attendances were made at the special classes arranged for out-patients. This year, 8,410 treatments were given to in-patients and attendances at the out-patients' classes reached 4,331.

The beneficial work of the Department has attracted the attention of medical men from all parts of the world, for whom special demonstrations have been given, and the staff instruct masseuses from other Institutions, by arrangement with the Ministry of Health, in this special form of chest treatment.

In addition to the Instructress who was appointed in 1934, there are now three whole-time assistants.

The grateful thanks of the Committee are again extended to "Bundles for Britain, Inc.," the British War Relief Society of America, the Dudley House Depot for Gifts from America to Great Britain, the War

Gifts

activities ever since. Nurse D. P. Procter has acted as Honorary Secretary of the Group throughout the whole of this period, and during the present War has collected £3,000.

The Staff at the Sanatorium also have a Savings Group, and during the past three years have raised £3,300. The sum of £200 has also been collected and given by the patients to the Minister of Aircraft Production towards the cost of fighter aircraft.

Retirement
of Lodge
Porter

The Committee draw attention to the long and faithful service of W. J. Filkins, the Lodge Porter, who retired in December after 40 years' service. He was a valued and respected servant, and the Committee have granted him a retiring allowance. He was also presented with a cheque from his fellow-workers as a mark of their esteem and affection.

Abridged
Annual
Report

In view of the necessity for continued economy in the use of paper, the Annual Report is again issued in an abridged form. The list of Governors and Subscribers has again been omitted, but is available for inspection on application to the Secretary.

The Committee desire once again to thank those who have kindly sent gifts of game, flowers, new-laid eggs, cast-off clothing, etc., for the benefit of the patients.

Many letters from grateful patients were received during the year, expressing thanks for beneficial treatment at the Hospital and Sanatorium, in many cases enclosing such donations as they could afford.

In conclusion, the Committee desire once again to express their deep sense of appreciation of the valuable and devoted work of the professional, administrative and domestic staff, both at the Hospital and at the Sanatorium. The staff is much reduced, which has necessitated those available in some Departments working very long hours.

DUDLEY,
Chairman.

Brompton Hospital Sanatorium.

REPORT FOR THE YEAR 1942.

MALE PATIENTS.

ADMITTED.		DISCHARGED.			
On Exercise.	Died.	I.S.Q. or Worse.	On Walk- ing Exercise.	On Light Grade.	On Full Grade.
20	—	—	2	4	14
Not on Exercise.					
140	6	15	17	18	84

FEMALE PATIENTS.

ADMITTED.		DISCHARGED.			
On Exercise.	Died.	I.S.Q. or Worse.	On Walk- ing Exercise.	On Light Grade.	On Full Grade.
19	—	—	4	—	15
Not on Exercise.					
163	8	13	17	13	112

NOTE :—

On Exercise.—Those well enough to be up for six hours and able to take a minimum of half-a-mile walking exercise daily.

Not on Exercise.—Those below this standard.

Further figures dealing with the routine work :—

The average daily number of beds occupied 146·2
The average length of stay 151·6 days
The number of cases in which artificial pneumothorax was performed during the year 160
The number of “ refills ” in the above cases 2,950

The number of sputum examinations made during the									
year	1,276
The number of urine examinations made during the									
year	4,107
The number of X-ray photographs taken						2,770

Of the 342 patients admitted, 42, or 12·2 per cent., failed to respond and either died or became worse. This is a very low and encouraging figure.

Admissions :—On Exercise. Not on Exercise.				Total.
1936	...	179	166	345
1937	...	74	300	374
1938	...	81	303	384
1940	...	30	291	321
1941	...	32	263	295
1942	...	39	303	342

Of the 300 who responded, 225, or 75 per cent., reached the full grade of exercise. This shows a continuance of the steady rise in this figure during the past 12 years.

This rise is interesting. It reflects, as I have said before, the efficiency of the choice of case for treatment at Frimley, but I think it also reflects the steady increase in the use of radiology in diagnosis. As one looks back over these twelve years, the evidence of earlier and earlier diagnosis is clear and obvious.

1930	59·2%	1936	65·7%
1931	53%	1937	60·8%
1932	59·2%	1938	68·2%
1933	64·7%	1940	72·4%
1934	66·5%	1941	74·7%
1935	67·3%	1942	75%

There has been no radical change in treatment.

I record with gratitude the loyalty and untiring co-operation of the Nursing and Domestic Staff during another hard year. Whatever difficulties they have had to put up with, the patients have not suffered.

Our only form of entertainment has been the continued kindly visits of Mr. Parkins, supplying and projecting films throughout the winter season.

The Staff War Savings Group has been as active as ever during the past year, and is referred to in the Annual Report of the Committee of Management.

The pig farm has had a successful year, but difficulty is experienced in running the Sanatorium Canteen owing to the shortage of supplies.

We are as much indebted as ever to the Lady Almoner's Department, and make full use of the fortnightly visits.

R. C. WINGFIELD,
Medical Superintendent.

THE CHAPLAIN'S REPORT, 1942.

The Chaplain has derived much pleasure and encouragement in his work, both at the Hospital and at the Sanatorium, during his first year of office. Particularly valuable and helpful have been the personal ministrations and talks with patients occasioned by the daily visiting of the wards. At the Hospital, 406 Communion have been made in the Chapel and 226 in the wards; at the Sanatorium, 281 in the Chapel and 58 in the wards. The Sunday Services have been appreciated, especially at Frimley, where, owing to being at the convalescent stage, more patients are able to attend.

Donations from the Chapel Collections have been sent to the Metropolitan Hospital Sunday Fund, and to the Waifs and Strays Society.

The Rose Fund has given assistance to 54 patients, and the Scorer Grants have been distributed to 15 patients.

The Chaplain desires to acknowledge the valuable help given once again this year by Mr. C. L. Harby, who has conducted Services in the Hospital for the past 17 years ; and also to express appreciation of the ministry of Miss Grace Beattie, Head Pilgrim of the Society of the Pilgrims of Hope, who has visited regularly in the women's wards and rendered much help by her sympathy and understanding.

Our thanks are also due to the Red Cross Library at Brompton so ably run and conducted by Mrs. Richmond. During the year, Mrs. Richmond and her assistant, Mrs. Bramhall, have circulated 17,761 books, an average of 341 a week, and 7,430 patients have borrowed books, an average of 142 a week. The trolley which holds about 90 books pays a weekly visit to each ward. There are 2,000 books in the Library, and it takes the two librarians, with the aid of two trolleys, three afternoons a week to complete the round of the Hospital. Many thanks are due to patients and friends for donations and gifts of books ; also to a few members of the W.V.S. in Chelsea, who very kindly rebind or repair the worn books. This is a most necessary part of the Library work and demands a lot of time and skill. The effect of clean and bright-looking books plays a large part in the success of the weekly round.

Our thanks are also tendered to the Guild of St. Raphael for the gift of Communion Rails now in use in Brompton Chapel.

And finally, the Chaplain desires to express his appreciation of the kind assistance in the carrying out of his duties so readily given by the staff at Brompton and at Frimley.

SIDNEY C. BELCHER,
Chaplain.

LADY ALMONER'S REPORT, 1942.

First impressions of the Brompton Almoner's Department on a newcomer are of eager, thorough, social work and well-planned administration. It is a high and difficult privilege to follow Miss Marx. Her vision of the social problems connected with tuberculosis, and the wisdom and energy with which she solved them in happy partnership with statutory and voluntary bodies, are an inspiring pointer to future battles against this essentially social-economic disease. Patients quickly learn to feel like friends, certain of help where they need it, and the keen informed co-operation of the medical and nursing staffs makes for team-work of a higher standard than in hospitals where the almoner's function is less clearly understood.

The resignation of Mrs. Critchell, who deputised for Miss Marx, meant a sore loss to the department and to Frimley after seven years. The warm tributes to her from Frimley patients will long continue to prove how real and vital was her work for them. Miss Douglas also resigned, through ill-health. Miss Hooper succeeded to the Frimley almoner's post, Mrs. Reynish to in-patients, and the vacancy in out-patients was filled by the appointment of Miss Nangle to the almoner's staff.

In comparison with last year, the figures of work done are about the same in several categories, less in others, and noticeably higher for patients sent to sanatoria through local authorities, those dealt with by the Ministry of Pensions and War Pensions Committees, and in "reports sent and received." That fewer patients have been referred to voluntary agencies such as the C.O.S. and I.C.A.A. is perhaps due to the higher war-time wage levels and greatly increased children's services.

The department continues to deal with innumerable enquiries of every description, by letter and particularly by telephone—for which there is little to show in statistical results. Observation of the out-patient clinics seems to indicate an increased public awareness of the rise in tuberculosis figures. Early

examination and treatment is thereby facilitated, but an alarming number of cases also occur among factory workers in whom the disease has progressed undetected, through overwork and trying industrial conditions.

Acute difficulty is now experienced in finding hospital and sanatorium beds, and many patients have a horrifying wait, even for urgent treatment. Long-term prospects are made more cheerful by the plans put out for family allowances and rehabilitation, by the Medical Research Council and the Tomlinson Committee, measures warmly welcomed by medical-social workers.

But even a comprehensive statutory scheme will leave many opportunities for help to individual patients from voluntary sources. Expenditure from the hospital's Samaritan Funds for the year increased by over £400. Patients contributions for hospital treatment and maintenance also show a considerable increase.

The following figures give some idea of the scope and volume of the social work carried out. (Last year's figures are given in brackets).

Referred for advice, help, treatment to :—

Tuberculosis Care Committees	(396)	412
Tuberculosis Officers and Medical Officers of				
Health	(2,065)	2,123
Charity Organisation Society	(86)	65

THE ANNUAL COURT OF GOVERNORS was held in the Board Room of the Hospital on Thursday, the 25th March, 1943.

The Rt. Hon. THE EARL OF DUDLEY, M.C., D.L., J.P.,
IN THE CHAIR.

It was moved by The Rt. Hon. THE EARL OF DUDLEY,
Seconded by WIDDRINGTON STAFFORD, Esq., and

Resolved—That the Report of the Committee of Management, together with the Accounts and Balance Sheet for the year 1942 be and is hereby adopted.

It was moved by The Rt. Hon. THE EARL OF DUDLEY,
Seconded by Dr. MAURICE DAVIDSON, and

Resolved—That the following 17 Governors be elected the Committee of Management for the ensuing year :—

E. C. AUSTEN-LEIGH, Esq.

ERNEST E. BIRD, Esq.

J. HAROLD COOKE, Esq.

MAURICE DAVIDSON, Esq., M.D., F.R.C.P.

The Right Hon. THE EARL OF DUDLEY, M.C.,
D.L., J.P.

Sir JAMES DUNDAS-GRANT, K.B.E., M.D.,
F.R.C.S.

A. TUDOR EDWARDS, Esq., M.D., M.Ch.,
F.R.C.S.

Sir JOHN L. GILMOUR, Bart.

A. HOPE GOSSE, Esq., M.D., F.R.C.P.

Sir PERCIVAL H-S. HARTLEY, C.V.O., M.D.,
F.R.C.P.

GERARD KOCH DE GOOREYND, Esq.

GEOFFREY MARSHALL, Esq., O.B.E., M.D.,
F.R.C.P.

The Hon. Mrs. EDWIN MONTAGU.

A. SAXON SNELL, Esq.

WIDDRINGTON STAFFORD, Esq.

FREDERICK WOOD, Esq.

F. H. YOUNG, Esq., O.B.E., M.D., F.R.C.P.

It was moved by WIDDRINGTON STAFFORD, Esq.,
Seconded by J. HAROLD COOKE, Esq., and

Resolved—That Messrs. PRICE, WATERHOUSE & Co. be and are hereby appointed Auditors to the Hospital for the ensuing twelve months.

It was moved by The Rt. Hon. THE EARL OF DUDLEY,

Seconded by WIDDRINGTON STAFFORD, Esq., and

Resolved—That the best thanks of the Governors are due and are hereby presented to the Medical and Surgical Staff for their valuable services during the past year.

It was moved by WIDDRINGTON STAFFORD, Esq.,

Seconded by J. HAROLD COOKE, Esq., and

Resolved—That the thanks of this Meeting are due to the Chairman, the Right Hon. THE EARL OF DUDLEY, for his kind and judicious conduct in the Chair this day.

F. G. ROUVRAY, *Secretary*.

THE ROSE CHARITY FUND.

On the occasion of the completion of the Board Room at the Hospital, some of the members of the Committee of Management thought that a fit opportunity presented itself of testifying their esteem towards their Honorary Secretary, and their appreciation of his zealous and successful exertions on behalf of the Institution, by placing upon its walls a portrait of the benefactor who had so large a share in its origin and progress, and who may be justly regarded as its founder. A subscription list for this purpose was rapidly filled up, but its original design was abandoned at the earnest request of Sir Philip (then Mr.) Rose. It was then determined to devote the subscriptions to the formation of a fund, to be called the "ROSE FUND," and to apply them, with such other contributions as might be obtained, in assisting the patients by gifts of clothes and small pecuniary grants.

The Fund thus raised now amounts to £2,496 19s. 2d. New Zealand $4\frac{1}{2}\%$ Stock, 1944, the dividends of which sum together with the Annual Subscriptions to this particular Charity, constitute the income applicable to the above benevolent objects. Its administration is entrusted to the Committee of Management of the Hospital.

GEORGE SCORER CHARITY TRUST FUND.

A sum of money left by the late George Scorer and invested, and which is now represented by £707 9s. 6d. New Zealand $4\frac{1}{2}\%$ Stock, 1944, the income of which is given in equal grants to fifteen deserving In-Patients upon their leaving the Hospital. This Fund is also administered by the Committee of Management.

THE DRESDEN ASSISTANCE FUND.

Founded by the late Edmond Dresden, Esq., who left one-fifth share of the residue of his estate to this Hospital, the income to be given in grants not exceeding £10 in any individual case to needy and deserving In-Patients upon their leaving the Hospital. The Fund is administered by Trustees.

Donations of any kind of Cast-off Apparel are most acceptable for the use of those patients who enter the Institution in a very destitute condition, and will be thankfully received at the Hospital by the Matron.

INCOME TAX AND SUPER-TAX ON ANNUAL SUBSCRIPTIONS

Annual subscribers, by filling up the following form of agreement for seven years, enable the Hospital to recover income tax on their subscriptions, and can themselves deduct the amount of the subscription from their super-tax return.

I, of
HEREBY COVENANT with THE HOSPITAL FOR CONSUMPTION AND DISEASES
OF THE CHEST, BROMPTON, that for a period of seven years from the sixth day of April,
194 , or during my life whichever period shall be shorter, I will pay annually to the said
Hospital such a sum as will after the deduction of income tax leave in the hands of the Hospital
a net sum of £..... (.....) such

(Words)

sum to be paid from my general fund of taxed income so that I shall receive no personal or
private benefit in either of the said periods from the said sum or any part thereof.

IN WITNESS whereof I have hereunto set my hand and seal this
day of.....194.....

For example, if a contributor who now subscribes £5 5s. od. per annum enters into an agreement
in the above form, filling in the figure £5 5s. od., the result will be, under the Finance Act, 1942 :

- (a) the subscriber sends a cheque for £5 5s. od., with a certificate that he has paid income
tax on the amount ; the Hospital can supply forms of certificate if desired ;
- (b) the Hospital recovers the income tax from Somerset House ;
- (c) the contributor appears as a subscriber of £10 10s. od. (with income tax at 10s. od. in
the £) ;
- (d) the contributor can deduct £10 10s. od. from his return for super-tax.
